I have worked with People from various nationalities, Client in country and abroad, mostly in Oil and Gas industry, but also in Marines services, and Safety business.

During 25 years of career with SLB, my appraisal has been consistently marked as follows;

- Relationship (at every level of organization)
- High energy level
- Creativity

They are key attributes to my success of uncovering opportunities.

I have had many objectives, but in summary they are;

- Gaining people support
- Realizing technology difference
- Maintaining profitability of the assigned account

These are key attributes to my advancement in my career.

The one award I sweat for, even its Bronze, but it's a Performed by Schlumberger for PERTAMINA Training.
