

Salis S. Aprilian Ph.D.

Salis is a petroleum engineer with experiences in various high level key positions in upstream, midstream and downstream oil & gas sectors, such as President Director of Pertamina EP Cepu (2008), Pertamina EP (2009-2011), Pertamina Hulu Energi (2011-2012), PT Badak NGL (2014-2017), Technical Expert and Strategic Advisor to Gas Directorate of Pertamina (2017-2018). In 2018, he established a digital start-up company called DEA (Digital Energy Asia).

Salis is very active spending part of his time for professional organizations, such as: SPE (Society of Petroleum Engineers), IATMI (Ikatan Ahli Teknik Perminyakan Indonesia -- the Society of Indonesian Petroleum Engineers), IPA (Indonesia Petroleum Association), IGS (Indonesia Gas Society), METI (Masyarakat Energi Terbarukan Indonesia -- The Society of Renewable Energy Indonesia), etc. Now he is a member of Advisory Board of SPE Asia Pacific, and Vice Chairman of IGS.

He got BS and MS degrees in Petroleum Engineering, Bandung Institute of Technology (ITB), in 1987 and 1993 and Ph.D. degree in Petroleum Engineering from Texas A&M University in 1998. His vision is to develop the young professionals in oil, gas, and energy industries to sustain the business more sensible to the environment by using advanced digital technology.
